Scientific Course.

The Scientific or Commercial Course, permits the Student to select such studies as have a direct bearing on his intended pursuits in life. Those who take this course, receive a certificate according to the branches of study which they pursue. Where the Student is a minor, the consent of his parent or guardian is necessary to his entering upon this Course.

APPARATUS, &c.

A valuable Philosophical and Chemical Apparatus, and a rare and extensive Mineralogical Cabinet, are among the aids to a thorough instruction in Natural Philosophy, Astronomy, Chemistry, Geology, and Mineralogy.

LIBRARIES.

The Libraries of the College and Literary Societies, embrace in the aggregate, about 12,000 volumes. Each Student may have access to the College Library by paying the annual fees, amounting to one dollar.

The Libraries of the Literary Societies, are accessible to the members of the Societies, upon compliance with such laws as the Societies respectively enact.

ATTENDANCE, &c.

Punctual attendance is required at prayers, as well as on other College exercises. A Sermon is delivered every Sabbath morning in the College Chapel by one of the Clerical officers of the Faculty. The Students are required to be present, and also to attend Public Worship in the afternoon, at such places as their parents or guardians may direct. The Laws of the College also require one Biblical recitation weekly. The Professors consider themselves charged with the moral and religious, as well as the intellectual training of the Students.

EXAMINATIONS.

All the classes are examined before the close of the Second Term.

The Senior Class, four weeks previous to the Annual Commencement.

The three lower Classes, the week before Commencement.

THE SUYDAM PRIZES.

These prizes are $40 each, either in a gold medal or money, and one to be given to the member of the Senior Class who shall write the best English Composition on any given subject. The other to the member of the Senior Class who shall pass the best examination in the Natural Sciences.

ANNIVERSARIES AND EXHIBITIONS.

The Anniversary of the Alumni Association, is held on the day previous to the Commencement.

The Anniversaries of the Literary Societies, on the afternoon of the same day.

The Exhibition of the Junior Class, in the evening of the same day.

COMMENCEMENT.

The Annual Commencement is on the Fourth Wednesday in July; when Academical Degrees are conferred.

VACATIONS.

There are three Vacations during the year.

The First, from the day after Commencement, to the 1st of Oct.

The Second, from the 23d of December, to the 3d of January.

The Third, from the 7th of April, to the 1st of May.

BOARDING HOUSES.

The Faculty have power to pass such rules and regulations relative to the number of boarders in each house as they think proper.

The Students shall board only at such places as are approved of by the Faculty.

No Student shall keep fire-arms, spirituous or fermented liquors, or any means of gaming, or be absent from his room, except at such hours as shall be prescribed by the Faculty.

Excellent boarding may be obtained in families, approved of by the Faculty, at $2,50 to $3,00 per week. All our observation and experience have convinced us, that residence in respectable and cultivated families, has a much happier influence, alike on the morals and manners of the Students, than seclusion within the walls of a College, and being subjected for several years to the habits of a College refrectory.

College Expenses.

The price of Tuition is $45 per annum. The admission fee is $5. Both are required to be paid in advance. There is also a charge of five dollars for incidental expenses. The expense for boarding and Treasurer's bills will amount to $128 or to $148 per annum, as the Student wishes to board at the lowest or higher price. The advantages of a complete Collegiate education are thus placed within the reach of the Student, at what will be found a remarkably moderate expense.

The Tuition fees, and incidental charges upon each Student, not exceeding five dollars per annum, shall be paid in advance, at the beginning of the first and third terms; and no Student shall be admitted to the lecture rooms, whose bills shall remain unpaid after the expiration of a fortnight, beyond the period when they are hereby declared due and payable.

Each candidate for the degree of A. B. or A. M. shall pay to the Treasurer for the use of the President the customary fee of five dollars, for conferring such degree and signing the diploma.

ADDITIONAL PARTICULARS.

The Students are required to attend Prayers in the College Chapel every morning, (the Sabbath excepted,) at 9 o'clock.

The instruction of the College is given entirely by professors.

No Students are allowed to leave the city during the sessions without permission from the President.

Every Student is obliged to attend Biblical recitations every Sabbath morning in the Chapel.

No meeting of the students shall be held in the College, for the transaction of any kind of business unless by permission of the President.

No secret societies shall be permitted to exist in the College, except the two literary Societies, viz: the Peithessophian and Philoclean.

The mild and proverbially healthy climate of New-Brunswick, with the very moderate expenses of living, and the opportunities of frequent and rapid communication, by Railroad and Steamboat, with all parts of our country, and at all seasons of the year, render it exceedingly desirable as a place of education.

Provision is made by the Board of Trustees for pious and indigent youth, who have in view the Christian Ministry.
